

Healthcare and medical devices workplace snapshot

A smile is a powerful thing. It really can open up a world of possibilities.
Smiles never run out – the more you give, the more you get. Let's
healthy smile for life is more than just a deep frown. It's about feeling good.
By caring about people we can create great experiences. People
live healthy lives. We believe in giving every smile the attention
love. So they can smile brightly and lead the way to a brighter day.

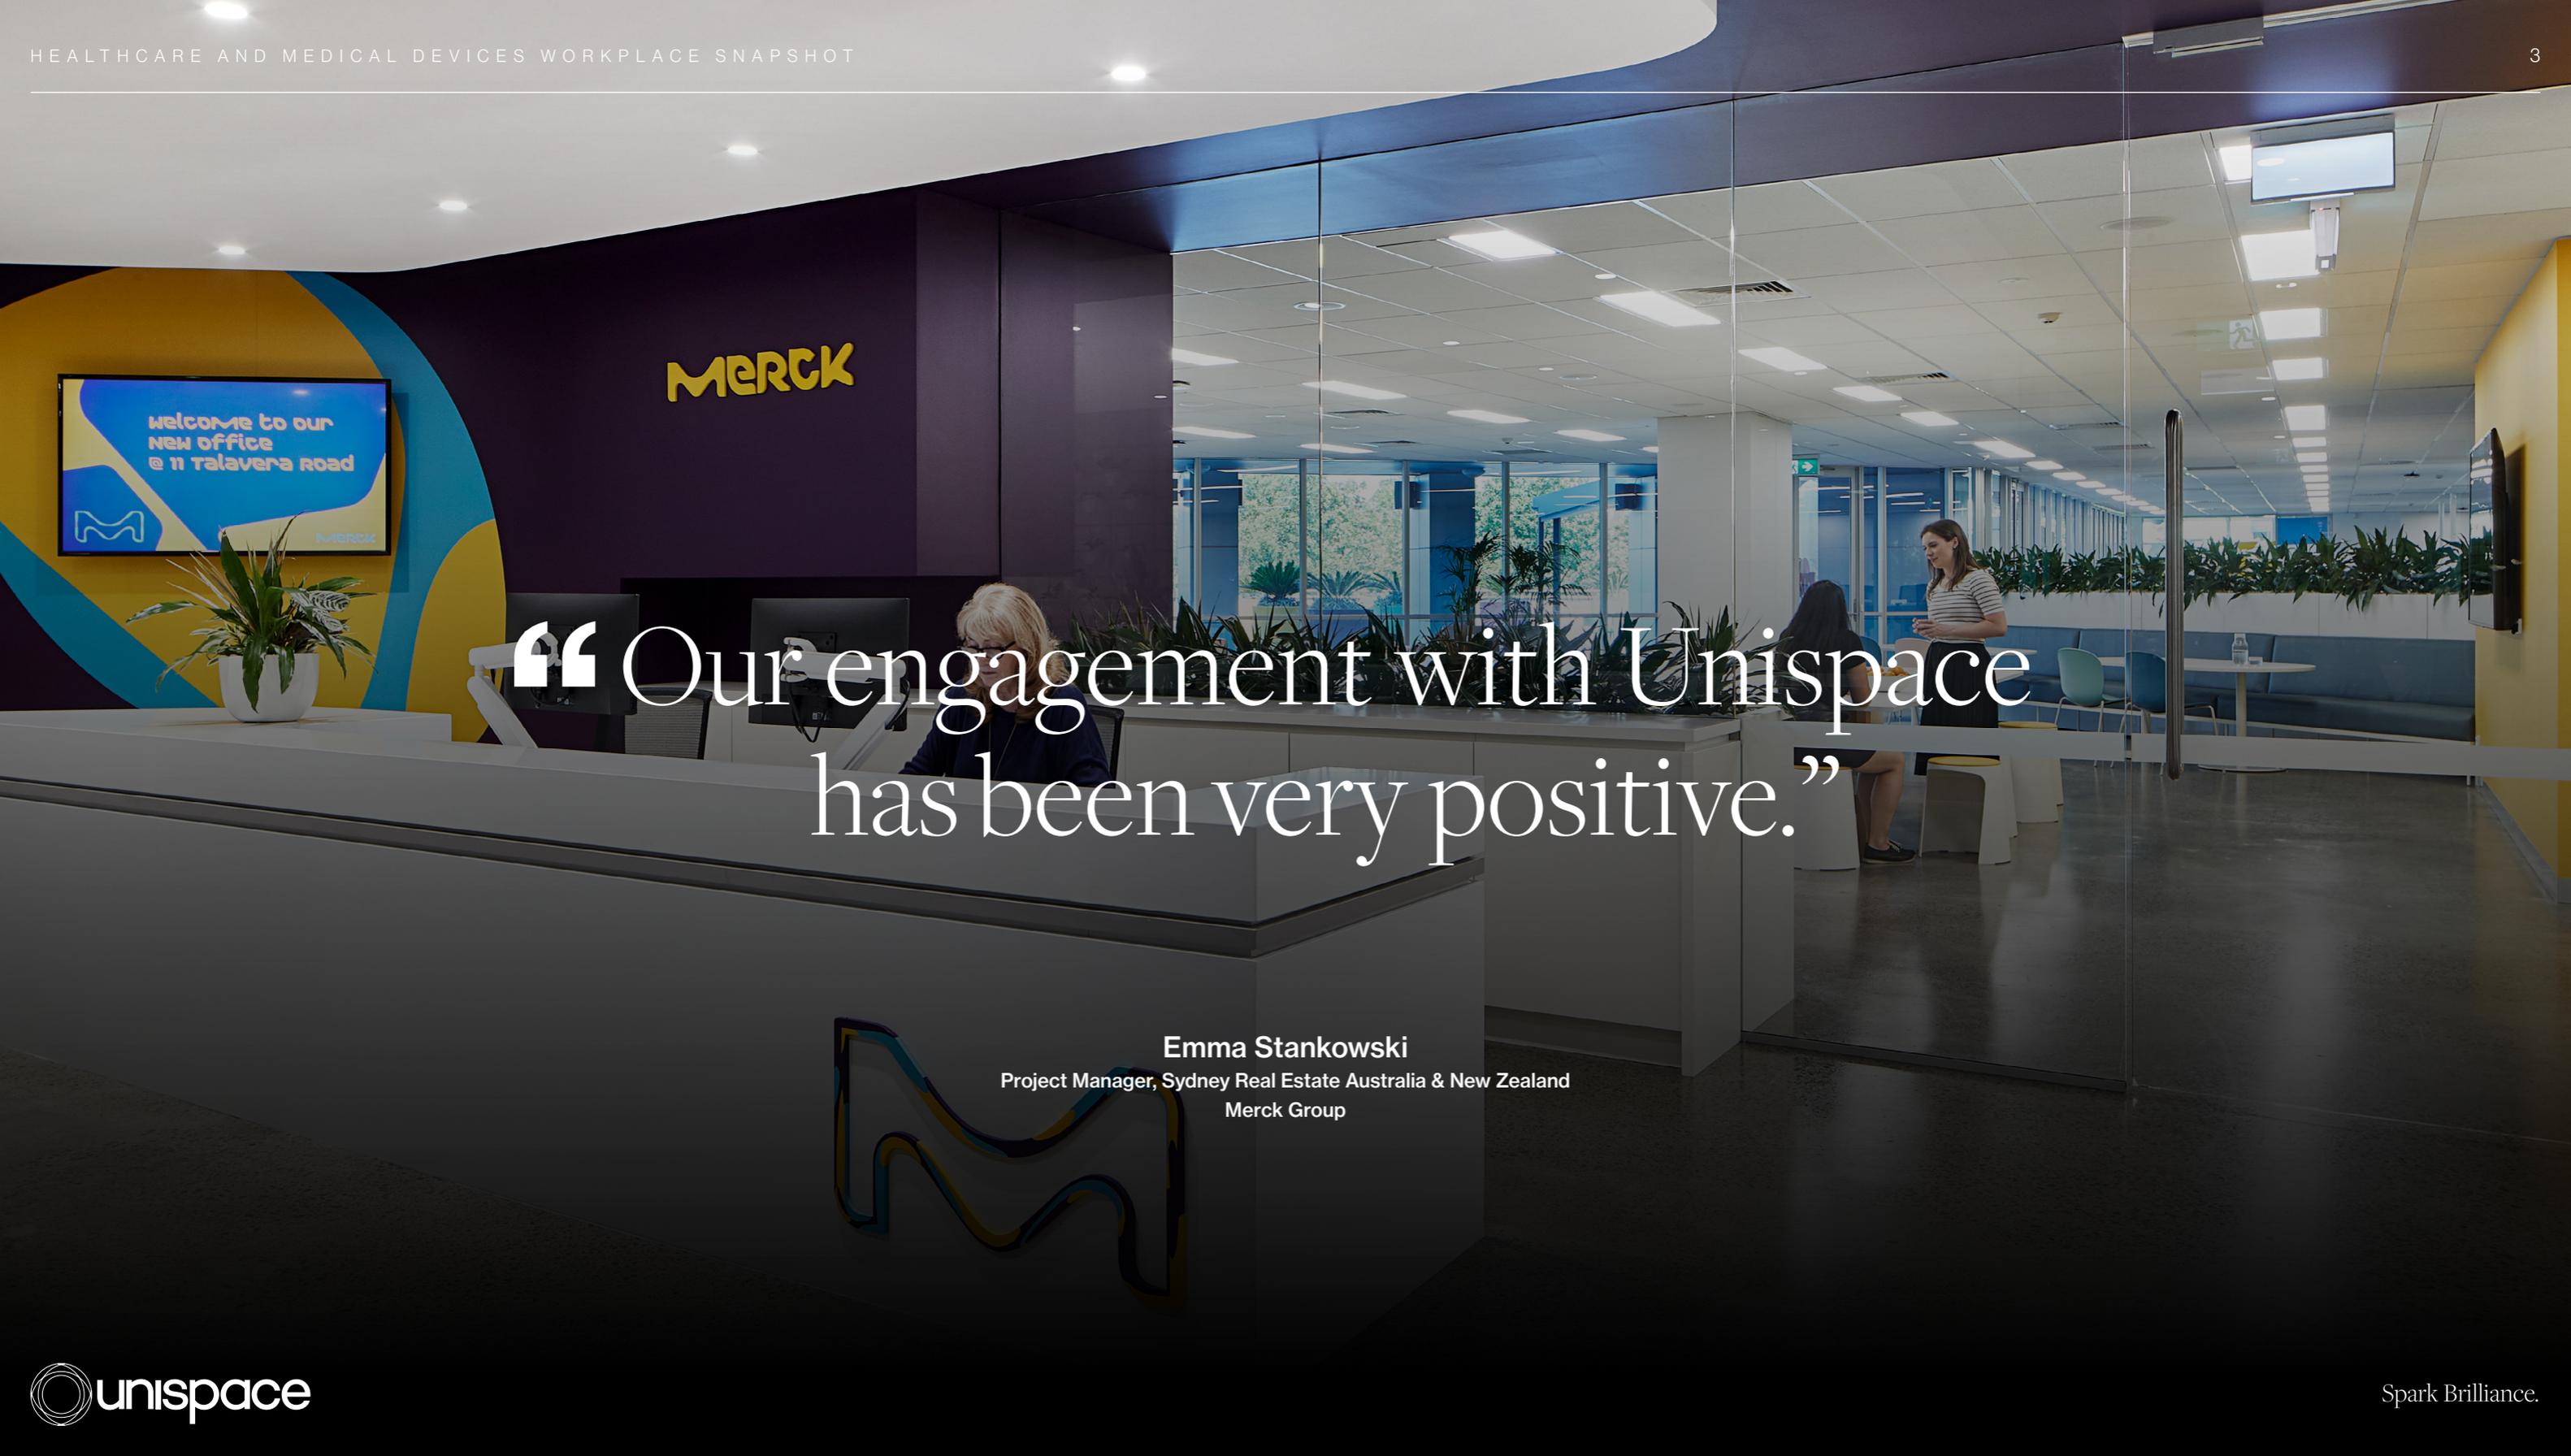

Industry overview

Healthcare, clinical, and medical device organizations face rising patient expectations, growing operational pressures, and the need for workplaces that support both precision and compassion.

As teams balance care delivery, innovation, and regulatory demands, the workplace plays a critical role in improving efficiency and staff wellbeing.

This snapshot highlights GWI 2025 insights shaping the future of healthcare and medical device workplaces— from workforce wellbeing to operational performance and the environments that enable safer, more coordinated care.

“Our engagement with Unispace has been very positive.”
